SIKA DESIGN

A PROUD TRADITION OF CRAFTSMANSHIP

Our passion for and understanding of rattan dates back decades. We have been around long enough to call ourselves Scandinavia's oldest producer of rattan and wicker furniture.

The story of our company begins in 1942, when Ankjær Andreasen produced the first batch of baskets, lamps, flower tables and other smaller interior items made of rush and willow. In the 1950's, Ankjær expanded his production to include a series of furniture made from rattan, and the company Sika-Design was firmly established.

The rattan was imported from the Far East, and Ankjær travelled there to purchase the rattan for his wicker makers in Denmark. During a trip in 1972, he was so impressed by the skilled wicker makers that he decided to establish a wicker furniture factory in Malaysia. Since then, the Far East has been essential to our production of furniture. Today, we manufacture our furniture in our own factory in Indonesia. Ankjær's son, Knud Andreasen, took over the company in 1983, however Ankjær continued his daily "inspections" until his death in 1997. On my 10th birthday, my father allowed me to attend a fair where Sika-Design was exhibiting a series of rattan furniture.

On that day, I knew I wanted to be a part of his company, and my passion for rattan furniture began. Since 1996, my father and I have worked side by side bringing Sika-Design into the new century with great design, while never letting go of our strong heritage of great craftsmanship.

Sika-Design respects human rights and complies with the SA8000 standard for social accounta-

bility, and we demand the same commitment from our suppliers. Products from Sika-Design are developed and marketed in accordance with our management system for environment and social responsibility ISO 14001/2004 and SA8000/2008. Certified by Bureau Veritas Certification.

AFFÄIRE

The Affaire collection is a combination of the amazing natural resource, rattan and the fantastic man-made synthetic fibre. The frames are made of rattan and the woven seats and backs, and the bindings are all made of polystrand synthetic fibre. The designs in this collection are our own, and some of them date back to the 50'ties and 60'ties, and you will find some of the same in our Originals collection.

Affaire is designed for the upper end cafés, brasseries and restaurants in historical European cities and capitals all over the world.

Affaire is also an elegant choice for Riviera's along waterfronts all over the world. Our handcrafted Affaire café chairs, stools and tables bring you back to the atmosphere of Paris café life in the 30'ties.

ORIGINAL TEAK COLLECTION

To complement our collection of rattan items we have developed an original series of teak products. All our teak items are made of old reclaimed teak from old houses, fishing boats and railroad supports. The rustic teak items will appear with reparations and fillings and the general characteristic that old wood will have.

LOUISE ANDREASEN
3rd generation,
Sika-Design

3 GENERATIONS WITH PASSION FOR RATTAN

LOUISE ANDREASEN

(1971-)

Louise Andreassen is the 3rd generation to run Sika-Design. She has worked side by side with her father Knud since 1995 and took over the ownership of the company and role of CEO in 2015. Louise is very conscious about inheriting a special company with a strong company culture characterized by freedom with responsibility. She is determined to preserve and continue this culture created by her father and grandfather.

Louise has from a very young age been passionate about furniture production and interior design. Her strong footprint in the company has been insisting on creating furniture in the natural material rattan and educating the market and customers about its wonderful qualities. She loves to combine the light Scandinavian look with oriental details and materials. Louise adds a feminine touch to the decor and seeks to create a cosy ambience with her furniture.

KNUD ANDREASEN

(1948-)

Knud Andreassen took over his father's company in 1983. Over three decades, Knud has developed a strong worldwide distribution and made solid manufacturing partnerships in Indonesia and Malaysia. In 1989 he founded Sika Design's associated company Cane-Line A/S and in 1991, he acquired the Danish competitor Horsnæs and merged it with Sika. Knud was a pioneer when he introduced the game changing material ArtFibre on the European market in the late 1990s.

Knud has always insisted on great comfort and strength when designing and producing furniture. Especially furniture designed for hospitality has been one of Knud's core focus areas. He has always had an eye for practical details such as making sure the chairs are stackable.

ANKJÆR ANDREASEN

(1911-1997)

Ankjær Andreassen established the company Sika Møbler in 1942. He was a true entrepreneur at heart and had previously run a hotel, created an entire housing area and arranged spectacular motorcycle races. He was a man full of ideas and imagination.

In the beginning Ankjær home produced wicker baskets and lampshades and small pieces of rattan furniture, but the business quickly grew and in 1951 he established a cane and rattan manufacturing company on Funen. In 1972, Ankjær went on a trip to the far east and when he returned, he had bought a piece of land and established a rattan furniture production in Malaysia which quickly grew to 150 men.

RATTAN

A NATURAL AND SUSTAINABLE MATERIAL

RATTAN AND ARTFIBRE

Rattan is a natural climbing plant that grows in the Indonesian rainforest. Rattan have been known to grow up to a hundred meters long. Rattan grows naturally without disturbing the existing structure and balance in the rainforest. Rattan is strong, lightweight, flexible, and durable.

ArtFibre is an artificial fibre made of dyed and hardwearing polyethylene. It can withstand the sun's burning UV-rays, heavy rain and even frost. ArtFibre is the material we use for the bindings and weaving of the seat and back of our Affaire café furniture pieces.

The combination of natural rattan and ArtFibre provides flexibility, strength and optimum comfort.

AFFAIRE COLLECTION USED OUTSIDE

Our Affaire café chairs are made of raw natural sustainable rattan and are designed to be used outside, preferably in covered areas. The chairs can stand showers, but we do not recommend daily rain.

The life expectancy of our Affaire café chairs will be prolonged if they are stored indoor during wet winters. When used outside the raw natural rattan frame will turn greyish like teak, after a few months use.

We recommend that you clean our Affaire café chairs with a brush and warm water 2-3 times during the summer season to keep the raw natural rattan frame clean from dirt.

SIMONE BAR STOOL

SOFIE CHAIR - COLONIAL TABLE

SOFIE CHAIR

A beautiful stackable chair,
available in 5 different colors.

DANIELLE TABLE

Available in 2 color variations,
and 3 different sizes.
